

Using Equatio in Brightspace- Students

Equatio Button Layout

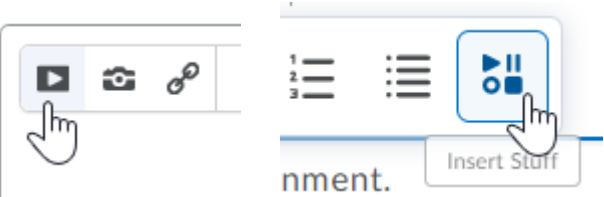

Answering a Quiz Question with Equatio

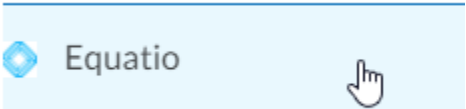

1. If instructors want you to respond to a question with an equation, you can use Equatio in any question type that allows you to use the **HTML Editor**

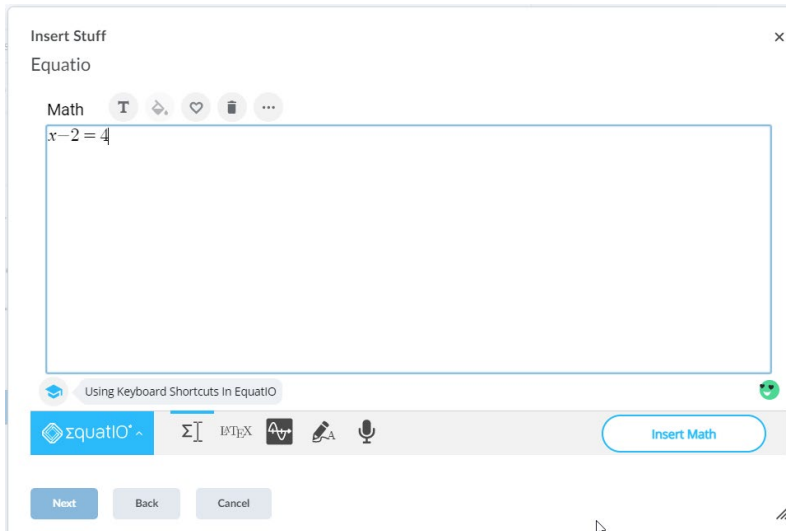

2. In the Quiz question, click into the text entry box
3. Click **Insert Stuff**

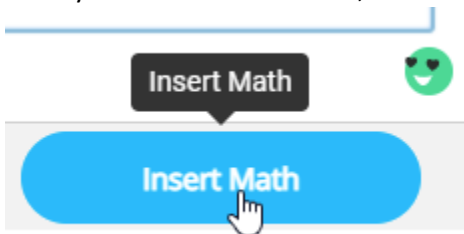

4. From Insert Stuff, choose **Equatio**

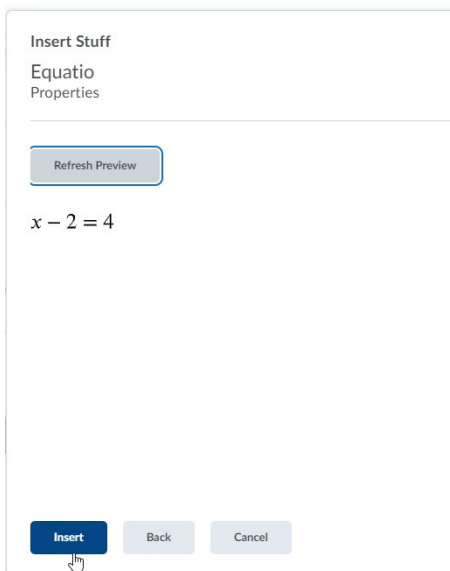

- In Equatio, type your math, use the handwriting recognition feature to write it, or use the graph editor to create a graph

- Once your math looks correct, click **Insert Math**

- Click Insert once more to **insert** the math into your question

- You will now see the math in your Quiz question

Submitting an Assignment with Equatio

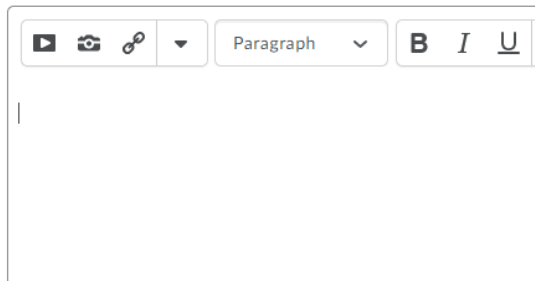

Using Equatio, you can type a math Assignment directly into your Assignment folder's **Text Submission** box.

1. In Assignments, click on your Assignment Folder
2. Click into the Text Submission box

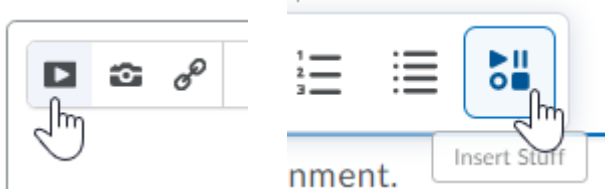

Submit

Text submission

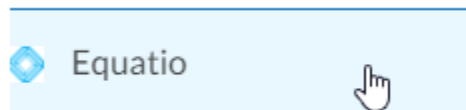

Text Submission

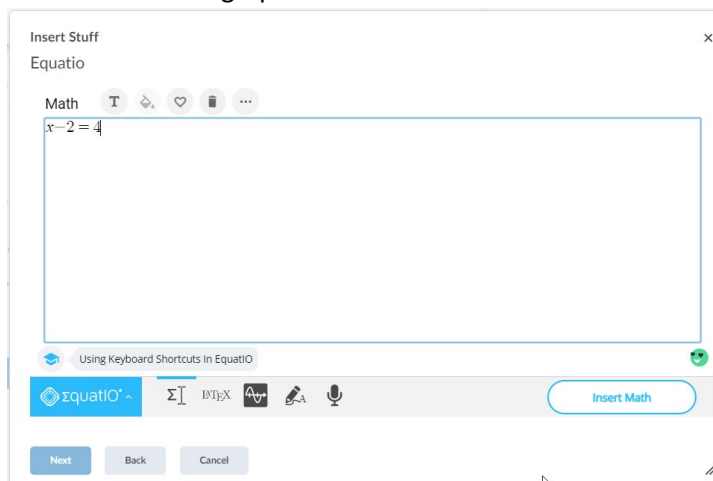

3. Click the **Insert Stuff** button

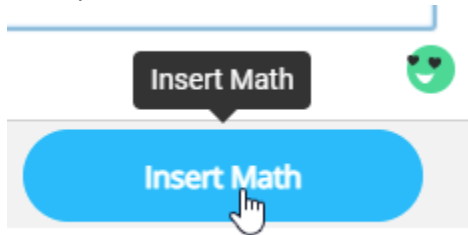

4. From Insert Stuff, choose **Equatio**

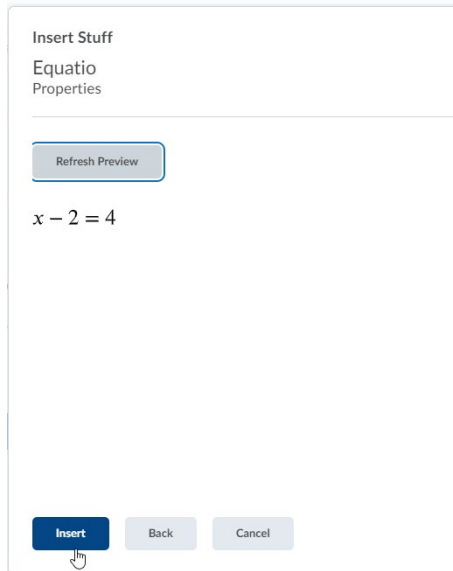

5. In Equatio, type your math, use the handwriting recognition feature to write it, or use the graph editor to create a graph

- Once your math looks correct, click **Insert Math**

- Click **Insert** once more to insert the math into your question

- You will now see the math in your Assignment folder's Text Submission field
- Type any other text you want to add, and click **Submit** to submit your Assignment
