

HOW TO CHECK GRADES IN BRIGHTSPACE

What's in it for me?

Most instructors at Langara will post student grades in Brightspace. As a student, you want to know how to access them for review as you monitor your progress in the courses you take.

How to do this:

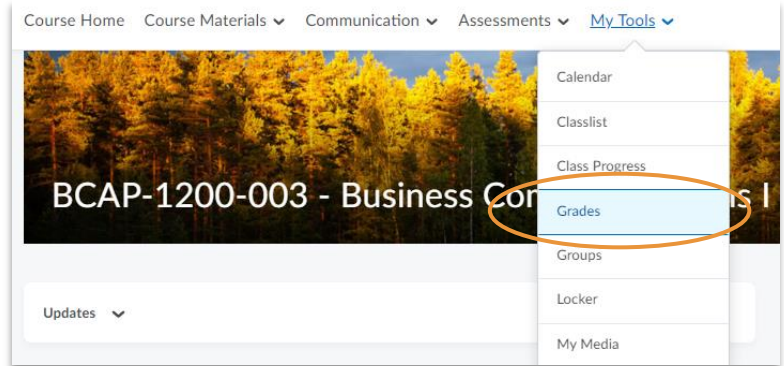

1. Login into Brightspace
2. Choose a course from My Courses
3. Go to **My Tools**
4. Select **Grades**

Grades are set up by your instructors, and layout can differ. Check carefully to understand the breakdown. Grades can be grouped by Assignments, Quizzes and Tests. Display options can show point value, weight value overall, and grade value.

The grades in Brightspace may reflect assignments/quizzes/tests that are either done in Brightspace or outside of Brightspace.

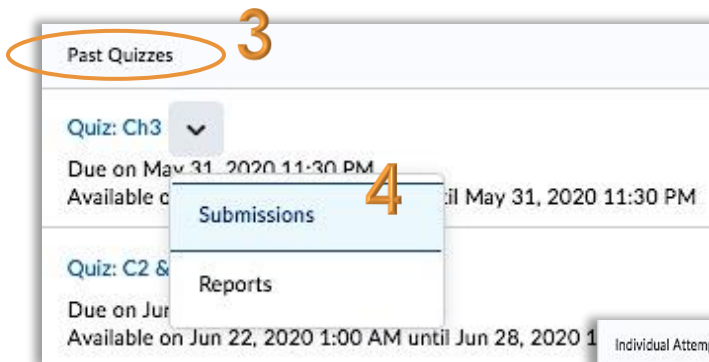

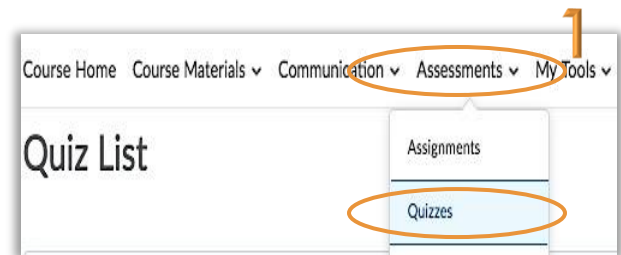

Some multiple-choice quizzes can be set up directly in Brightspace, and marks for those can be viewed right away, once you are done with the quiz.

1. Go to **Assessments**
2. Select **Quizzes**
3. Locate the quiz in the **Past Quizzes** list
4. In the options beside the quiz, select **Submissions**
5. Your attempts and quiz grades will appear

This screenshot shows the 'Grades' page in Brightspace. It contains a table with the following data:

Grade Item	Points	Weight Achieved	Grade
ASSIGNMENTS		- / 27	-
CONCEPTS - SIMnet Training	- / 100	- / -	-
CONCEPTS: In class file management exercise	- / 15	- / -	-
WORD - SIMnet Lessons-Projects	- / 100	- / -	-

This screenshot shows the 'Individual Attempts' table in Brightspace. It displays the following data:

Individual Attempts	Score
Attempt 1	8 / 8 - 100 %
Overall Grade (highest attempt):	8 / 8 - 100 %
